Summary of Conclusions

Measures to Deal with the Bihac Situation

1. The Principals agreed on the need to move forward in an expeditious but deliberate manner to gain support for actions to prevent Bihac from being overrun and to stabilize the situation, in order to return the focus to obtaining a negotiated settlement.
2. Principals approved the following set of triggers (action-forcing mechanisms) and potential responses as a basis for bilateral discussions with the British and French before taking further action in the NAC.

TRIGGERS

- o Serb offensive captures more territory in the Bihac area than held prior to the Bosnian Government offensives.
- o Serious artillery attacks on Bihac City.
- o Serious attacks against the Bangladeshi Battalion.
- o Bihac City suffers strangulation.

MENU OF OPTIONS

- o Establish exclusion zone (Dimensions negotiable).
- o Close Air Support in defense of UNPROFOR (Requires TACP insertion -- no new UN or NAC decisions required).
- o Close air support in response to artillery attacks from Croatia (NAC has approved; requires Croatian approval).
- o Extend Deny Flight ROE to permit attacking air defense assets in Croatia displaying hostile intent (Requires decisions at UN and NATO).
- o Modify existing authorities to authorize "hot pursuit" of aircraft attacking targets in Bosnia from Croatian airfields.

Implementing Nunn-Mitchell

3. The Principals reviewed progress on implementing Nunn-Mitchell and directed that efforts continue with Congressional members after refinement of the briefing by DoD to ensure that Congressional lift advocates fully understand the implications of lift. Our aim is to ensure that they are prepared to provide the required political and financial support if and when multilateral lift becomes necessary. Principals agreed that we remain opposed to unilateral lift.
